About This Game

Control a giant girl (Hanako Yamadain) and protect the earth from a space Majin invasion in this circular style side-scrolling shooter.

- Fly in the sky with butt jets and circle the world!!

Burning your life-fuel itself, accelerate away the day, night and day again in no matter of time.

- Use Girl Radar and clairvoyance to quickly find enemies and pulverize them with a giant machine gun!!

Guns, lasers, swords and more. Use an arsenal of weapons to lay waste to your enemies.

- Featuring the intuitive "Girl Aim" system that realizes both omni-directional movement and shooting that so many 2D shooting game developers have imagined but failed to do!!

Not only can you fire horizontal shots, but also shoot diagonally in the direction you are facing and tilting.

- Use complex fighting game-like controls to punch, kick, and stomp!! And then eat!!

It's not just about evading a throng of enemies. You can use melee combat to pave a path through your foes, then devour them like the savage you always wanted to be!

The nutrients from their remnants will be converted into "Femininity", allowing you to preserve your health and beauty.

- Every time you throw a bomb, you will surely become a genius!!

If you answer Math Problems that are displayed for some reason, you will be able to throw bombs.

Though, even if you do not answer them, you will gain bombs over time, so it's okay to ignore.

If you want, you can add your own problems to the game (so that it is not only Math Problems.)

- Your mission, should you choose to accept it.

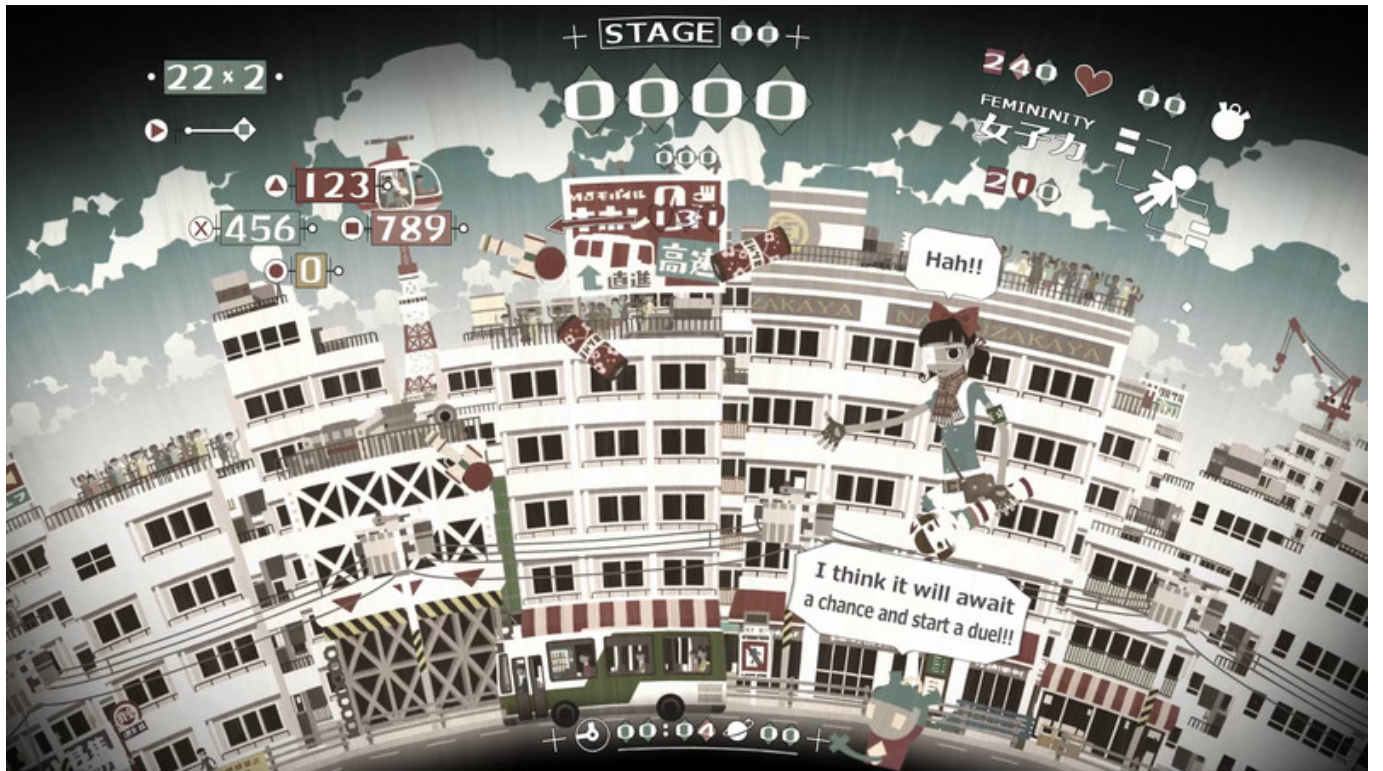

Collect the giant coins dropped by the enemy, buy clothing and become a cute stylish woman, a fashion expert aiming for the stars!!

[A fun but rage inducingly difficult gem but it's worth the pain. Cool concept and is fun once you master the controls. it's also fairly challenging so for all of those out there that wanted to run around beating and gunning down enemies at will with powerful stomps kicks and jetting around while being "kawaii" this is for you! I expect to pump plenty more hours into this game and am pleased to have found it.](#)
